Effective Pressure Relief

X-FOOT Padded Sock

Version „Soko“ - Use in the acute phase for problems on the Instep

X-Foot Padded Sock

The integrated pads distributes painful pressures and strokes evenly and dampen these impacts. The Socking is easy to put on the foot. The integrated pads can be brought into the desired position, absorbs painful pressures and blows to the front of the foot (Version front) and the region of the Achilles tendon (Version back) and reduces these. The version inside and outside protects the inner and outer ankle. Due to the thin design, the sock can be worn without problems in a tight-fitting skates, shoes or boots that go above the ankles. Thereby it relieves sensitive bony regions. Universal size.

Please note:

The inside of the socks is shown here, to point the position of the pads.

KNEE BRACE

Carbon Fibre and Titanium

Partially flexible thigh and lower leg shells. Only 1,5 mm thick upper and lower shells.

Non-slipping, torsion-resistant carbon-fibre frame. Stabilizes the joint where the knee needs it most.

Optimal anatomical fitting. Gives optimal wearing comfort.

Polycentric joints made of titanium. Thin, light and high strength.

Flexion and extension limitation. Flexion adjustable.

Counter-rotating Velcro® strap system. Enabling the K-COM knee brace a non-slipping fit without adding to unnecessary thickness.

Extremely light combined with high stability. Maximal stabilization of the knee with a minimum of weight.

"ORTEMA's K-COM has prolonged my career and saved me from many more injuries!"

Moritz Müller, Captain of the German National Hockey Team

K-COM Knieorthese

The knee brace, which is **100% individually manufactured** according to scan or plaster cast, can be used to prevent knee injuries, but is also used after cruciate ligament rupture, surgery or in cases of osteoarthritis. The K-COM is characterized by

perfect fit, lowest weight and optimal stability. It impresses with its slip resistance. The thin finish and unsurpassed wearing comfort round off the quality features.

K-COM 1 pc. Price on request

Knee Brace Stocking

Carrying the moisture under knee braces quickly away from the skin.

Sizes: 39 - 42, 43 - 46.

„MX-Socks“ 1 pair € 34.90

Model „Airmax“: Particularly thin and elastic version. One size fits all.

„Airmax“ 1 pair € 19.90

Model „Müller“:

Stronger version with additional silicon coating for even better skin contact.

| Size | Height |
|----------------------|------------------|
| approx. 65 cm length | up to 175 cm |
| approx. 80 cm length | exceeding 175 cm |

„Müller“ 1 pc. € 24.90

Model "MX-Socks" with foot part and extra back of knee soft zone to avoid pressure

„Airmax“ with climate controlling features

Model „Müller“

Individual Goalie Pads

The customized Goalie Pads offer optimal protection with a very good anatomical fit and unrestricted mobility. The thigh is protected by a carbon fibre frame. In the region of the knee joint a knee cap made of an extremely durable plastic is adapted.

The foam inliner significantly cushions blows and due to its flexibility adapts to the contour of the leg.

Goalie Pads 1 pair € 499.00

Goalie Adler Mannheim

ORTEMA

Slideboard 2.0

All-round fitness equipment for training coordination, speed, strength and endurance in a small space. The 260 cm long slideboard was developed with stable stops, a surface made of enormously slippery material and an anti-slip underside.

Rollable and easy to transport; with strap, booties, gloves and carrying bag.

Slideboard 1 pc. € 309.00

Larger quantities on request

Stay in Motion with bandages from SPORLASTIC

GENU-HiT®

Knee support with lateral spiral bars and a silicone ring around the knee-cap. The support stabilizes and relieves the knee joint through circular compression. Particular attention has been paid to ensuring that the brace fits as snugly as possible, especially in the area of the back of the knee. The brace is used after ligament injuries and irritation of the knee, but also for knee joint arthrosis.

Colors: Black, Platinum

GENU-HiT® 1 pc. € 89.00

GENU-HiT® Supreme

Knee support with AIR-MATRIX silicone pad and lateral reinforcement. The Intarsia comfort zone ensures a wrinkle-free fit. The SPORLASTIC AIR-MATRIX silicone pad is anatomically shaped and serves to relieve pressure and guide the patella. Stabilizing coil springs are also located on the sides.

Colors: Platinum/Orange, Black

GENU-HiT® Supreme 1 pc. € 95.00

GENU-TEX®

The dynamic textile knee orthosis with polycentric joint splints is ideal for stabilizing the knee joint after collateral ligament or meniscus injuries. The joints can be limited in both extension and flexion as required.

Color: Black

GENU-TEX® 1 pc. € 459.00

KASSELER PATELLAR TENDON BANDAGE

Highly effective proprioception support for professional and everyday use. The finely nopped proprioception pad contains a recess in the patella tip. The anatomically shaped reins ensure high wearing comfort.

Color: Platinum

Bandage 1 pc. € 69.00

Better in Motion

SPORLASTIC®
ORTHOPAEDICS

Orthopedic sport insoles

Support and stabilize the feet. The insoles ensure good power transfer from the skate to the ice. This can improve performance and reduce pain; available with or without splayfoot pelotte for targeted support of the transverse arch. Prefabricated according to shoe size.

Sizes: 38 - 48

| | | |
|---------------------|---------------|----------------|

**Reduce
painful impacts**

Skate-Guard

Effectively protect players feet from pucks or other impacts. Made of extra lightweight and impact-resistant polycarbonate.

Individ. fabrication 1 pair € 189.00

ORTEMA is official partner of the DEB

Stabilization of the Hip

Reduce tendon stress

X-Pants LP

Close-fitting pants made of breathable material with shock-absorbing pads in the area of the hip and thigh. Due to the honeycomb structure, these adapt optimally to every movement and protect the athlete. With removable coccyx protection.

Sizes: XS **JUNIOR**, S - XXL

| | | |
|------------------------------|--------------|----------------|
| XS (without seat pad) | 1 pc. | € 79.00 |
| Without seat pad | 1 pc. | € 89.00 |
| With seat pad | 1 pc. | € 99.00 |

ORTEMA Power Shorts

Compression shorts with integrated X-diagonal stabilization system. The tight-fitting pants made of breathable material, allows a relief of the tendon attachments in the groin, on the other hand, a stabilization of the hip. This leads to pain relief and relief in training and competition, especially in intense and explosive movements.

Sizes: S - XL

| | | |
|---------------------|--------------|----------------|
| Power Shorts | 1 pc. | € 79.00 |
|---------------------|--------------|----------------|

Coreshorts PRO 3.0

Diagonally running tapes stabilize the complete hip, groin and thigh area. Thus, effective increased compression can relieve ligaments, muscles and tendons.

Sizes: XXS - XL

| | | |
|-----------------------|--------------|----------------|
| Coreshorts PRO | 1 pc. | € 99.00 |
|-----------------------|--------------|----------------|

Rehband Thermal Shorts

The thermal pants made of elastic neoprene material provides comfort and warmth in the entire hip, groin and thigh area. It enables rapid warming of the muscles and supports recovery after activity. Thus, the risk of injury or inflammation can be minimized.

Sizes: XS - XXL

| | | |
|-----------------------|--------------|----------------|
| Thermal Shorts | 1 pc. | € 65.00 |
|-----------------------|--------------|----------------|

Lumbo-X Kidney Belt

The technical construction was designed according to sports orthopedic aspects. Thus, the lumbar spine is optimally stabilized and protected even during hard hits. The **Lumbo-X** relieves the lumbar area and can also be used for pain and tension; made of breathable mesh material.

Color: Black

Low (16 cm): XS - XXL

Version "Low" (Back height 16 cm)

Version "High" (Back height 24 cm)

Integrated, patented link chains with overstretch protection

Continuously adjustable via wide Velcro fastener

Additional belts support and relieve

Maximum Protection for the Shoulder and Elbow

Carbon Fibre Shoulder Brace

Individual production made after scan; in case of injuries or after surgical interventions on the shoulder or clavicle, the orthosis effectively stabilizes the joint. Due to its light

weight, it offers excellent wearing comfort. The straps can limit arm movement statically or dynamically.

Double-sided supplies are possible.

Shoulder Brace price on request

Size Charts:
ortema-shop.com

OMO-LUX®

Shoulder orthosis made of plastic, is prefabricated, but is customized.

OMO-LUX® 1 pc. € 399.00

OMO-HiT®

Shoulder brace, stabilizes shoulder and upper arm after contusions and dislocations. The slightly elastic material allows a good wearing comfort.

Side: R (right) or L (left)

Sizes: S - XL

OMO-HiT® 1 pc. € 199.00

Elbow Brace

Customized plaster cast manufactured out of carbon fiber; Use in injuries and after surgical interventions by the elbow. The elbow orthosis stabilizes the joint effectively and can be adjusted for their specific use. Through their low weight it provides exceptional wearing comfort. The webbings are able to limit the static and dynamic arm movements.

Elbow Brace price on request

OLECRANON-Bandage

Elbow bandage with silicone padding for additional protection of the elbow tip. The brace can be used after bruises, irritations, surgical procedures or to protect the elbow and bursa in case of falls and blows. Due to the anatomical shape there are no constriction effects in the crook of the arm.

Color: Black

OLECRANON-Bandage 1 pc. € 99.00

Individual supplies back on the ice faster

Finger luxations

Ligament - / capsule - injuries / wrist injuries

ORTEMA Fracture Brace

Individually manufactured orthosis according to scan or plaster cast made of carbon fiber or a special thermoplastic deformable plastic.

It is used for injuries as well as after surgical interventions in consultation with the doctor. Low weight ensures best wearing comfort.
